

# The Holocaust Memorial

In Memory of the Six Million Jewish Victims of the Holocaust

In cooperation with

## The Shul of Bal Harbour

We are pleased to invite you to attend a visual lecture presentation on

### “The Auschwitz Album”

There was something unprecedented happening. The Nazis took great pains to keep the Final Solution secret. Yet, for the only time that we know of, a photographer was present documenting the entire extermination process. The Auschwitz Album was found as a result of an astounding coincidence, discovered by Auschwitz survivor, **Lili Jacob Meier**. The Album showed the arrival and the selection of her family and friends. This Album is the only photographic documentation of the extermination process at Auschwitz-Birkenau, except for 3 photographs secretly taken by the Sonderkommando.
